

STATE OF WASHINGTON
Washington State Patrol
SOLE SOURCE POSTING

The Washington State Patrol contemplates awarding a sole source contract to LENCO Armored Vehicles to provide a BearCat tactical armored vehicle for the WSP Special Weapons and Tactics (SWAT) team.

The basis for this sole source decision is comprised of extensive market research and the ultimate ability for a vendor to produce a tactical armored vehicle with a minimum armor rating of Level IV with additional multi-hit .50 caliber BMG protection; off road capability and tight turning radius; run-flat tires; technological capabilities; and reduced training requirements for WSP SWAT members who have been operating a LENCO armored vehicle in hostile environments since 2004. The contract will be issued on or about May 18, 2020 for 24 months with three (3) one-year optional extensions. The dollar value is estimated at \$412,000.00.

Offerors contemplating the above requirements are required to submit capability statements detailing their ability to meet the state's requirements within 5 days of this announcement. The following information should be included in the capability statements: Armor Rating of Level IV with multi-hit .50 caliber BMG protection; turning radius specifications; turret/hatch specifications; number of gun ports that meet or exceed 13 7" ports; verification of armored oil pan guard; ram mounted camera; thermal image and color camera, with associated internal monitor system; door lockout system; power winch; and 4-wheel drive capability.

In the absence of other qualified sources, it is the state's intent to make a sole source award of the contract.
